<b>Drug/Drug Class:</b>	Diabetic Supplies
<b>First Implementation Date:</b>	8/1/2024
<b>Updated:</b>	6/6/2025
<b>Status Criteria:</b>	Criteria Revision New Criteria Preferred List
<b>NOTE:</b>	DME providers using provider type 16 must submit claims through the Prime portal. Any providers using provider type 07 must submit claims as an NCPDP prescription. Any reference to pharmacy claims pertains to claims submitted on the portal by DME providers <b>AND</b> claims submitted as NCPDP claims by a pharmacy.

**BLOOD GLUCOSE METER (BGM) AND OTHER SUPPLIES INFORMATION:**

- No prior authorization (PA) is required if the following criteria is met.
  - Beneficiary must have a prescription for a preferred BGM and/or supplies (i.e., blood glucose test strips, lancets, lancing device, urine reagent strips, or calibration solution).
  - There will be a 365-day lookback for a BGM in Medicaid pharmacy claim history. One (1) claim for a preferred BGM is allowed every 365 days. See the table below for maximum quantities.
  - Pharmacy claims may be processed for lancets and preferred blood glucose test strips without a PA at the quantities below unless there is a paid pharmacy claim for a continuous glucose monitor (CGM) in the past 365 days. If the beneficiary has a paid CGM claim in the past 365 days, blood glucose test strips and lancets will have a limit of ≤100 in the past 93 days (including the incoming claim) and would require a PA to exceed that amount.
  - Pharmacy claims may also be processed for insulin syringes, insulin pen needles, urine reagent strips, and lancing devices without a PA unless quantities exceed the limits below.
  - Requests for quantities outside of the documented limitation will require prior authorization. Submit a PA request for quantity override by fax to 800-424-7976 with the following information.
    - Current chart notes with documentation of required testing frequency.
    - Current blood glucose testing logs that demonstrate testing is required above the limitation.

**NOTE:** Any product not listed below will be considered non-preferred and requires documentation of the medical necessity over preferred options.
